Gil – I will make the swap-out to Delta Diablo shortly, though we are processing other contract paperwork at the moment which may keep me busy until next week.

Could you re-sent your attachment? It doesn't appear to have reached me.

-Pascal

Hello Pascal,

I looked over Technical Directive #7 and it looks good except for Great America (CA0030180). I confirmed the swap-out request with Bill and discussed with Phil. Please swap-out Great America (CA0030180) with Delta Diablo (CA0038547). Great America will be reissued by the Regional Board. The level of contractor support for Delta Diablo is going to change from support group level two to support group level one.

Attached is a spreadsheet with a calculator for contractor support. I would appreciate any comments or suggestions you have on this spreadsheet. According to the calculations on the spreadsheet we might have a little funding left over for 4-5 permits, depending on level of contractor support. Please let me know if I can add more permits to the contractor support table.

Thank you,

-Gil Vazquez

Subject: RE: Additional Permits for Contract Support

Gil – we’ve now fully utilized the existing (federal FY2013-14) contract, so unless there are RB5 permits on the existing request list (see attached) which they can be swapped out for, we’ll need to wait until RTP in Virginia releases the funds for FY ’14-15 before we can assign those to the contractor. Every permit in the list of that last block (Technical Directive #7) is one we’ve received the impression your office had approved contracts support for, so please inform us of any inconsistencies you find ASAP. The federal shutdown didn’t make getting information last month any easier, and I’d like for all of us to get this right going forward.

Phil, if you’re going to put together the spreadsheet for Diana which we discussed on the call, this file might be a good place to start; just need to re-sort it by regional board and multiply by the cost of each level of permit support, which I believe you have from our previous discussions.

Please note that Jim Parker mentioned to me on the phone he has heard of one swap-out request since this file was prepared: RB2 wants to push back the permit for California’s Great America and have the contractor work on Delta Diablo Sanitation (CA0038547 aka R2-2009-0018) instead. Please check your latest tables from Bill Johnson and let us know if you have objections to that proposal. Since Bill sends around updates so frequently we’ll need to get SB approvals similarly often.

Let’s make this re-start count,
-Pascal

Subject: Additional Permits for Contract Support

Hello Pascal,

This email is to see if you can add two permits to receive contract support. Attached is a list of RB5's request for contractor assistance. Please see attached spreadsheet for permit adoption dates and level of contractor assistance.

1. UC Davis Main WWTP CA0077895
2. Lake Wildwood WWTP CA0077828

Thank you,
